THE TRADE IN CHICAGO.

Chleago, Nov. 29 (Special).-Wheat lost 14c to %c and closed about the bottom. Liverpool gave the first downhill inclination, the English market ignoring the rally on this side Tuesday and coming 14d to %d lower. So far as the speculative trade cerned, it was in the way of changing. Eleand sell the May, and the outsider was doing the other thing-selling the December and buying the May. The elevator interests were anxious enough early to get changed over to narrow up the De-cember-May difference to 4kc. At the close it was the to 41/c. The seaboard clearances were 520,000 bushels. The seaboard reported 25 loads for export. There was no consumption demand for wheat here, but there was a demand from Buffalo for elevator purposes, some of the Buffalo houses being empty. It is not expected that the deliveries Friday will be large, for the elevator people will not be inclined to run the risk of losing their wheat to the Buffalo warehousemen. It is expected, however, that the deliveries will be large before December 5. The insurance rates advance ic a bushel to-morrow, and advance still further on December 5. After the 5th there should be little likelihood of any attempt to move out grain by lake. Crop advices from the West are favorable and the crop news from abroad is bearish. There has been a long decline in the wheat price, however, and there are those who believe that after deliveries there is a chance of some reaction. opened at 70c to 70%c, sold between 70%c and 69%c

Corn closed the under Tuesday, although early in the day it was firm. The range was within the December closing at 20%c, January at 20%c. May sold at 27%c to 35c and at 32%c, and closed at 32%. The early firmness was on wet weather West, on small country offerings and on small local receipts. The shipping demand was slow from here, although the seaboard reported 80 loads for export. There were only 171 cars received, with 235 estimated for to-morrow. Liverpool was %d lower on spot. Sea-board clearances were 525,000 bushels. Charters
